WIOD Conference:
Causes and Consequences of Globalization,
Groningen, The Netherlands, April 25
ACKNOWLEDGEMENTS

The data presented in this lecture were prepared by Dale W. Jorgenson, Mun S. Ho, and Jon D. Samuels. We are indebted to Mark Planting, Erich Strassner, and the Industry Division of the Bureau of Economic Analysis for time series data on input-output tables in current prices and to Ankur Patel for his help with the data construction. We are grateful to Trina Ott for preparing the presentation. Financial support was provided by the Donald Marron Gift Fund at Harvard University. The usual disclaimer applies.
A PROTOTYPE INDUSTRY-LEVEL PRODUCTION ACCOUNT FOR THE UNITED STATES, 1947-2010

Table of Contents

Annual Make and Use Tables in Current and Constant Prices, 1947-2010
65 Industry Sectors; NAICS Industrial Classification.

Annual Capital, Labor, Energy, Materials, and Services Data in Current and Constant Prices, 1947-2010
Capital Data Divided between IT and Non-IT; Labor Data Divided between Hours and Labor Quality.

Postwar U.S. Economic History
The Postwar Recovery, the Big Slump, and the Great Recession

Projecting Technology and Economic Growth
Substitution versus Technical Change
THE HISTORICAL BACKGROUND

Benchmark Input-Output Tables for the United States

Annual Input-Output Tables for the United States
1998-2010 on a Continuously Revised Basis

Time Series of Input-Output Tables for the United States
Jorgenson, Gollop and Fraumeni (1987), 1948-1979
Jorgenson, Ho and Stiroh (2005), 1977-2000
Jorgenson, Ho and Samuels (2012), 1960-2007
INDUSTRIAL PRODUCTIVITY IN EUROPE
Growth and Crisis
## IT-RELATED INDUSTRIES

### IT-Producing Industries
- Computer and electronic products
- Information and data processing services
- Computer systems design and related services

### IT-Using Industries
- Machinery
- Other transportation equipment
- Furniture and related products
- Miscellaneous manufacturing
- Printing and related support activities
- Wholesale Trade
- Retail Trade
- Air transportation
- Water transportation
- Truck transportation
- Pipeline transportation
- Publishing industries (includes software)
- Motion picture and sound recording industries
- Broadcasting and telecommunications
- Federal Reserve banks credit intermediation and related activities
- Securities, commodity contracts, and investments
- Insurance carriers and related activities
- Rental and leasing services and lessors of intangible assets
- Legal services
- Misc. professional scientific and technical services
- Management of companies and enterprises
- Administrative and support services
- Educational services
- Ambulatory health care services
- Hospitals
- Nursing and residential care facilities
- Social assistance
- Performing arts, spectator sports, museums, and related activities
- Other services except government
- Federal General government
- S&L Government enterprises
## NON-IT INDUSTRIES

| Farms                                      | Paper products                                      |
| Forestry fishing and related activities    | Petroleum and coal products                         |
| Oil and gas extraction                     | Chemical products                                    |
| Mining except oil and gas                  | Plastics and rubber products                         |
| Support activities for mining              | Rail transportation                                  |
| Utilities                                  | Transit and ground passenger transportation          |
| Construction                               | Other transportation and support activities          |
| Wood products                              | Warehousing and storage                             |
| Nonmetallic mineral products               | Funds trusts and other financial vehicles           |
| Primary metals                             | Real estate                                          |
| Fabricated metal products                  | Waste management and remediation services           |
| Electrical equipment appliances and components | Amusements gambling and recreation industries    |
| Motor vehicles bodies and trailers and parts | Accommodation                                    |
| Food and beverage and tobacco products     | Food services and drinking places                   |
| Textile mills and textile product mills    | Federal Government enterprises                      |
| Apparel and leather and allied products    | S&L General Government                              |
ROLE OF INFORMATION TECHNOLOGY
Growth of Value Added and Productivity

Output Shares of IT
Computers, Information and Data Processing Services, Computer Systems Design and Related Services

Output Contributions by Type
Computers, Information and Data Processing Services, Computer Systems Design and Related Services

Output Contribution of IT
IT-Producing, IT-Using, and Non-IT
Contributions of Individual Industries to Value Added Growth
ROLE OF TOTAL FACTOR PRODUCTIVITY

Total Factor Productivity
IT-Producing, IT-Using and Non-IT Industries

Reallocation of Factor Inputs
Capital Input and Labor Input

Aggregate Productivity Growth
Industry Productivity and Factor Reallocations
Contribution of Industry Groups to Productivity Growth, 1947-2010

- IT-Producing Industries
- IT-Using Industries
- Non-IT Industries
- Reallocation of Capital Input
- Reallocation of Labor Input
SOURCES OF U.S. ECONOMIC GROWTH, 1947-2010

Contribution of Capital Input
  IT and Non-IT Capital

Contribution of Labor Input
  Hours and Labor Quality

Contribution of Productivity
  Replication vs. Innovation
Sources of U.S. Labor Productivity Growth, 1947-2010

- Reallocation of Hours
- Non-college Labor Quality
- College Labor Quality
- Non-IT Capital
- IT Capital
- Aggregate TFP
PROJECTING TECHNOLOGY AND ECONOMIC GROWTH
Substitution versus Technical Change

Substitution among Inputs
Capital, Labor, Energy, and Materials

Biases of Technical Change
Capital, Labor, Energy, and Materials

Rate of Technical Change
Autonomous and Induced Technical Change
Econometrics
VOLUME 1
Econometric Modeling of Producer Behavior
Dale W. Jorgenson
